FOREWORD

Bhattadev University was established under the Bhattadev University Act, 2017 on 24 June 2019, the date on which the undersigned, following his appointment by the then Honourable Governor of Assam, Prof. Jagdish Mukhi, joined the institution as the first Vice-Chancellor of the University. The University started functioning from the existing 14-acre campus of Bajali College, the NAAC 'A' Grade college which was upgraded to the state university under Assam Act No. XXXVI. The institution had already been running 18 undergraduate (UG) and 4 postgraduate (PG) programmes under Gauhati University to which it was affiliated. Following its establishment, the institution started taking baby steps to become a University by following its own UG and PG syllabuses, and also by conducting its own examinations. The First Statutes, Ordinances and Regulations of the University were drafted within a short time, and the same – being approved by a six-member committee appointed by the Honourable Chancellor for the purpose – were submitted to the Chancellor's office in October 2019. Following the notification of the first Statutes, Ordinances and Regulations in July 2021, the Statutory Bodies including the Court, Executive Council (EC), and the Academic Council (AC) were constituted and the first meeting of the EC could be held in the month of December, 2021. The recruitment process for the appointment of key officers such as the Registrar, the Academic Registrar and the Controller of Examinations began in early 2022; however, the university affairs continued to be run by the undersigned with the help of a group of teachers who were given various additional charges in addition to their teaching during the period under review.

The effects of the COVID-19 pandemic continued until October 2021 when the University decided to allow students to come to the campus and they started attending classes physically. This led, for the first time, to an atmosphere that is expected in the campus of a university. Developmental works necessary to be taken up were identified and taken up gradually after that. In spite of the ongoing COVID-19 pandemic it was possible to begin PhD programmes in a few departments of the University by first recognizing some teachers as Research Supervisors (Guides) and then admitting the first batch of students into the programmes.

This report encompasses all relevant academic and administrative information of this university for the period 1 April 2021 to 31 March 2022. The format used for preparing this report is largely based on the format used by Gauhati University for the same purpose. The undersigned acknowledges the help received from several faculty and staff members in addition to the committee specifically appointed for preparing Annual Reports in completing this report. It is hoped that it will give a comprehensive overview of the activities and performance of the University during the period under review.

Pathsala, 10 April 2023

(Prof. Birinchi Kumar Das)
Vice-Chancellor

A profile of Bhattadev University, Bajali

Bhattadev University, Bajali, came into being on 24th of June, 2019 after the upgradation of the erstwhile Bajali College into a university as per an Act of the State Legislature – Bhattadev University Act, 2017, and following the assent of the Governor of Assam to it on 16 October, 2017. Prof. Birinchi Kumar Das assumed the office of the Vice Chancellor on 24th of June, 2019 and the University started functioning since then. The erstwhile Bajali College had a glorious history of more than six decades and was widely recognised as one of the prominent educational institutions of the state of Assam. Drawing on the past rich academic heritage of the erstwhile Bajali College, the University bears the promise of imparting quality education and research findings in the days to come. It is named after an illustrious son of Assam, Baikunthanath Bhagavat Bhattacharya popularly known as Bhattadev, who is acknowledged as the father of Assamese prose. It is worth mentioning that Bhattadev's scholarship in Sanskrit grammar and literature, and his command over the *Shrimadbhagavata Purana* earned him the title of Bhagavat Bhattacharya.

Bajali College stood for the vision and aspirations of the people of the greater Bajali region then to achieve success on educational front and societal development of the region. Many prominent individuals of the greater Bajali took the initiative in this regard, and accordingly the local agrarian community rendered selfless service in the direction of establishing the college. The college bore the marks of toil and sacrifice of the uneducated poor, and hence there had always been an effort on the part of the college to fructify the dreams and expectations of the people of this greater area. The college, established in the year 1955, began to strive hard towards achieving academic excellence under the dynamic leadership of the first Principal of the college, Kameswar Das, a Gold Medalist from Calcutta University. As such, within a few years of its establishment, the college came to be known as one of the best colleges in Assam, particularly for its success in imparting science education.

Postgraduate courses in Geography and Zoology departments of Bajali College were started way back in the early 1980s with the postgraduate course in the Department of Geography being the second oldest one in Assam after that of Gauhati University. The college left no stone unturned in its pursuit of academic excellence and, as expected, it was accredited with “A” Grade in its 2nd cycle of NAAC Assessment in the year 2016. Soon after the upgradation of the college into a university, Bhattadev University introduced postgraduate programme in Physics in the very first year of its inception. Bhattadev University, as of today, runs postgraduate programmes in Mathematics, Assamese, Zoology and Geography, and plansto start new 2-year postgraduate programmes in Chemistry, Commerce, Economics, English, and Political Science. The University, under the leadership of Prof. Birinchi Kr. Das, has also begun Ph.D. research programmes in several subject areas with effect from 2021. The Government of Assam has proposed to allot a larger plot of land to build a second campus of the University at a nearby place called Medhikuchi where, with generous funding from the Government of Assam, new construction works will take place. The institution, however, is developing and refurbishing its infrastructure at its existing campus at Pathsala town with a view to holding uninterruptedly the classes and conducting research works. The University plans to recruit new teachers ranging from Assistant Professors to Associate Professors to Professors in almost all the departments of the University, and proposals for recruitment of the same have been forwarded to the State Govt. Plans have also been set afoot to recruit non-teaching staff members against presently vacant but sanctioned posts of the University. With a view to making feasible the provision of access to quality higher education by the interested and deserving students, the University under the constant and meticulous mentorship of the Vice Chancellor, Prof. Birinchi Kumar Das, bears the promise of excelling in the field of higher education in the State.

COVID MANAGEMENT STRATEGIES ADOPTED BY BHATTADEV UNIVERSITY 2021-22

Bhattadev University, Bajali tried all the possible available means in the direction of combating COVID 19 by strictly adhering to the Standard Operating Procedures (SOPs) issued by the Government from time to time. In view of sustaining the academic interest of the student community of the university, the university had set up a COVID 19 Task Force and Students' Grievance Redressal Cell for COVID 19, and further ensured the proper functioning of the two. Distribution of printed pamphlets and leaflets in both Assamese and English languages for awareness generation on COVID 19 among the masses was carried on this year. Preparation of hand sanitizers by the university, specially at the initiative of the Chemistry Department, and distribution of the same among the people of the neighbouring areas continued to take place.

Continuous update of COVID 19 special webpages on the university website continued to take place. These provided a succour to the student community in mitigating their doubts and uncertainties regarding the spread of the disease. Timely information as regard researches on developing COVID 19 vaccines were uploaded on the university website. As regard the important task of imparting knowledge to the students, the university had earlier instructed the teachers to carry on the duty of teaching and evaluating the students through online mode, and accordingly tried to ascertain the veracity of the process. The situation was still in 'work from home' mode; therefore, both the teachers and students continued to take resort to Zoom, Google classrooms for teaching-learning and evaluation process. WhatsApp groups formed by the respective teachers of every department of the university proved to be a boon to the students at this hour of emergency as this continued to sustain the academic interest of the students. There was a provision for submission of specific queries, concerns and comments at email address - feedback.bustudents@gmail.com regarding the effectiveness of online teaching that the teachers were undertaking. The university duly took stock of this situation on day-to-day basis, and rendered timely help to the students in this regard. Numerous orders, advisories and guidelines from Government agencies and WHO were published for the purpose of preventing the occurrence and spread of the disease and sometimes aimed at addressing the mental issues faced by the people of all categories. The university made an update of these information on the website. Again, special message from the honourable Vice Chancellor regarding the prevailing academic situation of the university, about the time of commencement of examinations were uploaded on the university website for the student and teacher communities of the university. An appeal was made to the students to go by the instructions and updates as were made available on the university website. The task of timely evaluation of homework assignments and answer scripts through e-mail correspondence and whatsapp was carried out by the teachers as per the timely instructions of the university and, therefore, the university this time too could declare the results of the students in time. Online courses as are available on UGC SWAYAM platform proved to be beneficial to the students of the university, and they were asked to seek help from this platform too.

Towards the later part of the academic year, Government issued SOPs publishing the instructions to open the educational institutes in a regulated manner, and accordingly Bhattadev University began to conduct classes and research works by strictly adhering to the given Govt. instructions. As such, the task of regular sanitization of the classrooms and the compulsory use of mask by both the students and teachers within the university campus, the use of hand sanitizers as made available by the university were continued to be ensured by the university. The provision of social distancing between the students in the classrooms was ensured and the classes were held in such a restricted manner where wearing of masks by the teachers and the students was made compulsory by the university.
